A MESSAGE TO YOU

Dear Friends,

To all who receive this list, I take this opportunity to thank our customers for their business; and to acquaint many of you with the modest nursery operation of Mentor Rose Growers, Inc.

Six years ago I recognized that the demand for Quality Northern Grown Roses was not being fully met. The annual increase in rose production has been in other regions of the Nation. Those of you who have had a desire for a truly Northern Grown Rose, have been left wanting. Our firm was established to help fill this vacuum. I was able to bring seven years of rose growing experience to our program in meeting this obvious need.

We don't doubt there shall always be a demand from so many of you, who are in the retail nursery trade, for a Quality Northern Grown Rose. For I have found many of you believe as we do, there is much to merit the use of a rose grown for two years in the rich, clay-loam soils near Lake Erie. Here we have "four seasons" of the year in which to grow it naturally to field maturity. The rose thus produced, is then genuinely acclimated to the range of climate found in so many areas of this Country.

There is another advantage, which we feel is even more important for handling our Northern Grown Rose. This has to do with the root stock. Our roses are budded on an improved strain of Multiflora Japonica, which we import from Holland. This budding stock produces a pliable, fibrous root system that is in nice proportion to the top growth of the rose bush. This factor is greatly appreciated by those of you who pot roses; for it makes it easy to use the accepted rose-pot-size. It isn't necessary to trim off a lot of coarse, shanky root; or to struggle with hand shears in trying to trim thick, woody top growth, which is so often produced elsewhere on other types of root stocks. Also, I have found from tested experience, the multiflora root stocks provide a faster "root action", and they induce natural top growth sooner than many other root stocks in general use. This test was made with uniform pot culture practices on like varieties.

We feel that many other considerations would constitute strong recommendations for using our roses. Certainly all of these points are best understood when they are brought out in a discussion between two people. I realize I may never get to meet many of you personally for such a conversation; but at least, it has been my pleasure to convey our message to each of you in this manner.

If you have taken the time to read this far, I feel we have already made our acquaintance. Thank you, and I hope we may be able to serve you in some of your rose needs in the near future.

Very truly yours,

Jim Schroeder, Manager

MENTOR ROSE GROWERS, INC.

VISITORS ARE ALWAYS WELCOME

Please feel free to visit us at any time. We are located on Little Mountain Road 8/10 of a mile south of U.S. Rte. 20; or 4/10 of a mile north of Ohio Rte. 84. Little Mountain Rd. is the first road running north and south, east of Mentor Village limits.

BARE ROOT ROSES

Bare root roses for Fall orders are ready the end of October. We have adequate storage facilities to hold orders in good condition for Spring delivery until about May 1st.

WRAPPED ROSES

Packaged rose sales are increasing, because they can be offered for sale several weeks in advance of potted roses. Get your share of this market, order early! Packaged roses are available for Spring orders only, as follows:

- DELUXE WRAP: (single plant) No. 1 or No. 1½ grade, consists of an inner wrap of polly-coated paper, the roots being in a moisture retaining mixture of saw dust and cedar shavings. This is then inserted into an attractive Silver Foil Bag, which has a full color 3x5" picture of the plant on the side of the bag.
- ECONOMY WRAP: (single plant) No. 1 or No. 1½ grade, omits the Foil Bag; and a 2x3" card picture tag is attached to the canes in place of the larger picture.
- DELUXE WRAP PACKAGE: (3 different colors) No. 2 grade mixed Hybrid Teas and Floribundas. This is wrapped the same as the Deluxe Wrap; but in place of the color picture on the bag, a 3x5" card tag showing the three colors, is attached to the canes. The color combinations available are as follows: red, yellow and white; red, yellow and pink; red, pink and bi-color.

There is also a limited supply of No. 2 grade Climbers available for the above mentioned package as follows: red, yellow and white; red, yellow and pink; or a package of 3 red Climbers (Blaze).

This package of three roses has great sales appeal, order yours! The canes of all wrapped roses are coated lightly with a temperature controlled green wax to seal in all moisture possible.

POTTED ROSES

If you do not have the facilities, we will pot roses "on order". Otherwise, only a limited selection of potted roses are available "In Season". Pick-up at nursery, or delivery arrangements can be made in advance.

Your order will receive our prompt acknowledgment; and we exert every effort to fill each order as acknowledged, but sometimes shortages do occur due to circumstances beyond our control. In any event, all orders are filled with preference to the date booked.

IT'S BEST TO ORDER EARLY, PLEASE DO.

TERMS AND CONDITIONS OF SALE

- PRICES:** Quoted in this list are F.O.B. Mentor, Ohio, and are subject to change without notice. All stock is offered subject to prior sale, and all orders are accepted subject to crop yield. Boxing and baling is charged extra at cost, unless order is prepaid before shipment.
- PAYMENTS:** 2% 10 days, Net 30 days to those who have established suitable credit with us. If you desire to open an account, please furnish three references, and allow sufficient time to investigate. Otherwise, cash with order. Cash orders receive 2% off in addition to free boxing.
- CLAIMS:** All goods travel at the risk of consignee, we do not assume any responsibility after they leave the nursery. Any claim of loss due to broken boxes, crates, or bales, should be made promptly to carrier upon receipt of same. Claims against material, shortages, or other reasons will be entertained only if made within 5 days after receipt of goods. In any event our liability is limited to free replacement, or refund of purchase price.
- SHIPMENTS:** We appreciate your explicit instructions as to how shipment should be made. In the absence of same, we will use our own judgment; for which we assume no liability whatsoever.

PRICES FOR NON-PATENTED ROSES

Grade	1 to 9	10 to 99	100 to 499	500 to 999	1000 to 2499	2500 and over
No. 1	1.00 ea.	.65 ea.	.60 ea.	.58 ea.	.56 ea.	.54 ea.
No. 1½	.75 ea.	.50 ea.	.46 ea.	.44 ea.	.42 ea.	.40 ea.
No. 2	.50 ea.	.30 ea.	.27 ea.	.25 ea.	.24 ea.	.23 ea.

On Non-Patented Roses you are entitled to the quantity rate if your order includes Patented Roses. Example: If you order 200 Non-Pat. and 300 Patented, you will receive the 500 rate on those Non-Patented Roses ordered.

PRICES FOR PATENTED ROSES

The price of No. 1 grade is listed for each variety. The price of No. 1½ grade is 20% off the listed No. 1 grade price. NOTE: the quantity rate for Patented varieties is determined only by the number of each variety ordered, rather than the total of all varieties. We grow these listed Patented Roses under license from the various patent holders.

PRICES FOR WRAPPED ROSES

DELUXE WRAP	(single plant)	No. 1 or No. 1½ grade;	18¢ ea. above bare root price.
ECONOMY WRAP	" "	No. 1 or No. 1½ grade;	12¢ ea. " " " "
DELUXE WRAP PACKAGE	(3 roses)	No. 2 grade Hybrid Teas & Floribundas;	95¢ ea. package.

A COMPLETE DESCRIPTION OF THE NEW VARIETIES

#EL CAPITAN (1796) This new GRANDIFLORA blooms profusely, with its rich glowing, cherry red flowers holding fast in practically every weather. The foliage is large, plentiful, and glossy. A fine addition to this new class of roses.

#GOLDEN GIRL (PPAF) The rose that eclipses Eclipse. Its bigger, freer bush produces a great many more flowers in the wonderful GRANDIFLORA style. This very vigorous bloomer has flowers of sparkling yellow tones, and each of them 4 to 4½ inches across. Here is one rose that will truly be a gardener's delight for many years to come.

#FANTAN (PPAF) A new and novel beauty that has been added to the family of HYBRID TEAS. The unique color of this rose is difficult to pinpoint, but we consider it as a definite tan. The 3½ inch blooms are borne singularly on medium long stems, each bloom has 40 to 55 petals. The plant is medium in height, with leathery foliage that rounds out the bush nicely. This rose is distinctively different from anything yet produced; and will catch the imagination of the many who dote on the color rarities of the modern rose.

#ROYAL VELVET (PPAF) This new, rich, eye-filling red HYBRID TEA is a brilliant beauty when in full flower. Each enormous bloom contains 55 to 65 petals, and seems to be made of heavy velvet. The total effect of these plump blooms spells RICHNESS. Another thing, it does not blue as so many other red roses do. The plant is taller than average, and has fine foliage.
